VINTE (BUY, MXN\$36.0): The Danish Sustainable Development Goals Investment Fund obtains the main necessary approvals to invest US\$20 million in VINTE

VINTE announced the conclusion of the preferential subscription period of 14,440,430 common shares at a price of MXN\$27.70 each, equivalent to MXN\$400.0 million. Given that its current shareholders subscribed to 39,090 shares, the Company's Board of Directors decided to offer the remaining 14,401,344 shares to the Danish Sustainable Development Goals Investment Fund, which is managed by the Investment Fund for Developing Countries ("IFU"), a fund owned by Danish government which focuses on sustainable impact through companies that help meeting the UN's Sustainable Development Goals ("SDG's"). IFU had expressed interest in acquiring such shares. This agreement is expected to conclude during the current month. We believe this is positive news for VINTE as these funds will allow the company to accelerate the development of sustainable housing.
